## College of Design "Student Leadership Lunches"

### Going Well:

Students generate great ideas, e.g. Student Group Table Jam promoting membership and inclusion.

### Project Description:

Student leaders meet monthly for lunch and to share knowledge and develop leadership skills. Students share upcoming events, brainstorm opportunities for collaboration, and focus on a monthly topic such as budgeting, communications strategies, or best practices for leadership transition.

### Lesson Learned:

Students are eager to guide college programs and help each other succeed, and have great ideas. They often don't know where to find information; having an advocate to support their vision is essential.

### Challenge:

Scheduling times without class conflicts so that we can maximize attendance is difficult.
