THE IDEAL FRAMEWORK

# Office of the Provost

"Submit a competitive application for a NSF Institutional Transformation ADVANCE Grant by April 2019"

## Going Well:

Dedicated planning by a multi-disciplinary team, a clear commitment, and funding to move forward.

## Project Description:

Launch faculty search pilot program, identify ADVANCE proposals institutionalized elsewhere that represent best practices, gather and evaluate internal data, engage faculty to identify research and initiative focus areas and formulate a proposal aligned with selected research and initiatives.

## Lesson Learned:

The university's DAP planning process is creating institutional transformation and inspiring us to think big and reach high. We thank the entire campus community for participating in the process.

## Challenge:

A lean budget model and staffing ratios have made efforts to muster resources challenging.
