FRAMEWORK

# Museum of Natural and Cultural History "MNCH Statewide Educational Outreach"

## Going Well:

To date, the program has served 18,000 individuals and 31 of 36 Oregon counties.

## Project Description:

The program travels to K-8 classrooms and public libraries, providing high-quality and low-cost science education experiences around the state, with emphasis on rural communities with limited access to museums and informal STEM learning experiences.

## Lesson Learned:

The impact is greatest when we prioritize partnerships along the way, working closely with educators and librarians to customize lessons to local needs and interests.

## Challenge:

Demand for the program has exceeded capacity, booking out for the first year in a matter of weeks.
