## Robert D. Clark Honors College

### "Clark Honors College Curriculum Project"

#### Going Well:

The college offers several upper-division colloquia classified as multicultural courses.

#### Project Description:

Respond to faculty and student desire to keep the honors college curriculum inclusive of a wide range of perspectives, including incorporating works by underrepresented authors and course topics that cover a wider range of times and places.

#### Lesson Learned:

Ensuring that our college is a welcoming place to a more diverse student body relies on diverse students seeing their perspectives and interests reflected in the classroom.

#### Challenge:

Reimagining how courses can accommodate a greater diversity of readings and assignments.
