## Knight Campus "Knight Campus Diversity Through Design"

### Going Well:

Activating inclusion as a goal of design by engaging many faculty, staff and students in the process.

### Project Description:

The Knight Campus is engaged in a capital project to develop an iconic design and build a cutting-edge science building that recognizes and celebrates the role physical space plays in promoting excellence, wellness, diversity and inclusivity.

### Lesson Learned:

It is important to have a clear mission and a set of articulated principles against which you regularly test decisions and new ideas.

### Challenge:

Balancing expectations among multiple stakeholders.
